

Conferences, seminars, visitors

Conferences, program committees, seminars

January 5–6: Departmental seminar at Vingstedcenteret. *Not present.*

January 4–8: University of Lausanne.

January 13–15: University of Halmstad, Sweden (research evaluation panel member).

January 11 – July 2: *Stochastic Processes in Communications Sciences*, Isaac Newton Institute for Mathematical Sciences. Advisory committee.

January 26: University of Copenhagen (censor)

February 5: University of New South Wales. Presentation:
Heavy-tailed sums: simulation and dependence.

February 15: University of Melbourne. Presentation:
Failure recovery via RESTART: checkpointing and wallclock models.

March 8–10: *NTH Workshop on Finance and Insurance*, Technical University of Braunschweig.

March 22–26: University of Lausanne.

April 12–13: University of Copenhagen (censor)

April 26: Applied Probability Trust, Sheffield.

April 27-30: Isaac Newton Institute, Cambridge [advisory board for thematic period].

May 3-7: University of Lausanne.

May 20-21: Workshop on mathematics in insurance and finance, Växjö University,

May 25: University of Linköping (committee meeting).

May 28: *Workshop on Computational Stochastics*, University of Copenhagen. **Workshop cancelled.**

May 31 - June 2: Workshop *Computational Stochastics*, part of *10th International Conference on Computational Science, Amsterdam*. Scientific committee, not participating.

June 3–6: *6th Conference on Actuarial Science and Finance on Samos*. Scientific Committee and Session Organizer: *Risk and Control*

June 17-18: PRACQSYS 2010: The Principles and Applications of Control in Quantum Systems. Sandbjerg Estate. www.pracqsys.org. Invited speaker:
Markov Chain Monte Carlo With Applications to Statistical Mechanics and Hidden Markov Models

August 16–20: *9th International Conference on Monte Carlo and Quasi-Monte Carlo Methods in Scientific Computing (MCQMC'2010)*, Warszawa. Invited speaker

Visitors

November 15 – December 31 Romain Biard, Lyon
