Conferences, seminars, visitors 2013

Conferences, program committees, seminars

January 24: Seminar at the Thiele Center, Aarhus University:
Portfolio size as function of the premium: modeling and optimization

February 8: Stanford University. Lecture:
Portfolio size as function of the premium: modeling and optimization

February 10-16: IIMAS, UNAM, Mexico C. Talk:
Portfolio size as function of the premium: modeling and optimization

March: *Risk and queues.* Special activity month, EURANDOM, Eindhoven. Organizer and lecturer. Seminar talk:
Portfolio size as function of the premium: modeling and optimization
Mini-course:
Monte Carlo Simulation: Examples and Case Studies

May 15: University of Sheffield.

June 11–14: *International Harald Cramér Symposium on Insurance Mathematics.*, Stockholm University. `www2.math.su.se/icim`
Plenary lecturer:
Recent results on the ruin time with heavy tails

July 15-19: *Conference on Lévy Processes*, Wroclaw. Invited speaker:
Lévy processes with two-sided reflection

August 13–16: *Building Bridges: Probability, Statistics and Applications*, Braunschweig. Conference on the occasion of the International Year of Statistics 2013 and with special sessions in honour of the 60th birthday of Claudia Klüppelberg.
`www.tu-bs.de/stochastik/tagungen/building-bridges`
Invited speaker:
Recents results on the ruin time with heavy tails

August 22: University of Copenhagen (MSc dissertation defence).

August 29–30: Workshop on Applied Probability in Digital Economy, University of Edinburgh. Keynote speaker: *Lévy processes with two-sided reflection*

October 10-11: Applied Probability Trust, Sheffield.

November 13-15: Heriot-Watt University, Edinburgh.
Workshop in Applied Probability, Nov. 13, invited lecture:
Modeling and performance in bonus-malus systems
Conferral of honorary degree as Doctor of Science, Nov. 14.
